

SEMICONDUCTOR CLEANROOM M.E.P UNIVERSAL MOUNTING SYSTEM

MECHANICAL/ELECTRICAL/PLUMBING PEDESTAL SYSTEM™

Providing the Competitive Edge Through Improved Vibration Isolation. **Patented Solid Composite Vibration Isolation Plate** improves vibration isolation, amplitude reduction, and vibration regularization.

Different MEP Contractors may use dissimilar means and methods to secure MEP tool hook-up Lines.

- ❖ **A unified system** avoids situations of dissimilar MEP Lines underneath the elevated **Cleanroom flooring**.

Mechanical, Electrical, Plumbing Universal Mounting System

Coated with a Cleanroom compliant epoxy paint. Provides excellent chemical resistance and color retention.
